## DESIGN CONCEPT

The concept behind this year's annual report is inspired by CAO's transformation and business expansion. The creative use of CAO's logo on the cover further strengthens brand awareness in a dynamic and sophisticated manner.

The oil droplet is symbolic of CAO's core business operations in jet fuel supply and trading, while the ripples emanating from it signify CAO's aim to reach further and expand its scope of business.

Vibrant colours are used to evoke the celebratory spirit of **CAO's 10th anniversary of listing**, and also reflect the radiant future and success that lay ahead for the company.
